THURSDAY, MARCH 5, 1863.

AGENCIES.

Take notice to our authorized agent for San Francisco, through whom all business connected with this paper in that city must be transacted. E. B. BOUST is the authorized agent for the Enquirer for the town of Little York, You Bet and Red Dog.

FOR SALE, OR LEASE.

THE UNDERSIGNED, DESIROUS OF ENGAGING in other business offers the Enquirer printing establishment for sale at a low figure. The office is well stocked with newspaper and Job materials and has one of Burgin's largest size Power Presses. Possession given on the 15th of May. For further particulars apply by letter, or otherwise to Dutch Flat, Nov. 20, 1862.-E. B. BOUST.

COMMITTEE MEETING.—The Committee appointed to draft a Bill for the incorporation of the Town of Dutch Flat, are requested to meet at Justice E. B. Boust's office on Friday (tomorrow), at 10 o'clock, A. M. A prompt and full attendance is expected.

INCORPORATION MEETING.—Pursuant to notice a meeting of the citizens was held at the Golden Eagle Hall on Monday evening last, with a view of taking steps for the incorporation of our town. Considerable interest was evinced in regard to the matter, and the meeting was well attended. A bill which had been drawn, contemplating the organization, was submitted to the meeting, and after considerable discussion and the adoption of numerous amendments, was referred to a special committee of six, who are empowered to get up a new bill or revise the old one in a manner approximating the approbation of all concerned. The following gentlemen were appointed on this committee: C. Killmer, J. H. Willis, E. B. Boust, J. Hauser, E. L. Bradley and Jas. Teaf.

SMALL POX.—We understand that this dangerous and loathsome disease has made its appearance in our midst. Several cases of the most aggravated type are reported and other symptoms indicate its general prevalence; and as yet, we are informed, no measures have been taken to prevent its dissemination. We would therefore urge upon our citizens the necessity and importance of taking some steps to arrest its further progress. We would also suggest, that if it be true that this loathsome disease is prevalent in our midst, it should not be kept secret. All should know it, and to what extent and where it exists, so as to be enabled to guard against it as much as possible. It is the duty of our medical practitioners to speak candidly on this subject. Persons who have not had this disease should not be allowed to frequent places where there are those who are afflicted with this malady.

THE WEATHER.—Whilst thinking on this subject and looking over our exchanges, we came across the following, in the Marysville Express, and as it suited us exactly, we take the privilege of republishing it: "It seems as if the days of love had arrived when the heart of man should be warmed unto pleasantness, and the earth was to be dressed in a garb of living green in a very short space of time. The very streams roll down our hillsides in glee, and the waters replenish (not hereabouts, as yet) the earth abundantly. During these days of warm sunshine we have observed many of our young take themselves unto the green pastures of the plain, and there converse in pleasant strains on the freaks of love and the sorrows of disappointment, causing their young hearts to leap with joy at one moment, and then to fall back in sad despondency as reference was made to the dreary hours which was to be passed by those who were selected to tread life's pathway alone. We love this weather. It brings into exercise the fondest emotions of our nature. Let the sun shine on a little longer and there may be yet a gleam of hope for us desponding mortals."

SPORT OF THE RING.—Quite an interesting exhibition took place yesterday in our town. It was one that called all the lovers of sport to "time." Mr. Wm. Eddy and Mr. Geo. Carter, entered the ring for an old fashioned wrestling. Stakes up. Conditions—best two out of three falls to be the winner.

Half-past two both men appeared upon the ground, apparently in good spirits. Betting light, as there appeared to be but slight difference between the contestants.

First Round.—Both came to the scratch in fine style—having nothing but light shirts on, it was difficult to get hold. Eddy tossed his man, but no throw.

Second Round.—Both came nobly to their work. After considerable fancy and play Eddy threw his man fair and square.

Third, fourth and fifth Rounds resulted in play, during which neither gained any advantage.

Sixth Round.—Carter threw Eddy fair and square.

Several rounds passed without any favorable result to either party. Both fatigued, they came nobly to scratch for the last.

Twelfth Round.—When Eddy, with a sudden ketch lock, threw his man as if by magic.

Everything passed off quiet and orderly. We understand there will be another wrestling next week. They are both good men and we doubt whether better men for their age can be found in the State.

CORRESPONDENTS.—WIDE AWAKE; we are always obliged to our friends for communications touching upon matters of interest to the different localities of this or neighboring counties, but we never intend publishing anything of a personal or local nature. On account of your communication containing more of the latter than any decent journal could publish without the whole community fainting, it is politely declined.

YANKEE JIM'S.—During a short visit to Yankee Jim's last week, we had the pleasure of visiting the Odd Fellows' Lodge of that place, which the members of the Order have recently had built and furnished. It is, we should think, one of the most comfortable places for the purpose that we have seen in the mountains; being built of brick, neatly carpeted and supplied with all the conveniences necessary to the comfort of the members. We learned that it was the intention of the members to endeavor to have their hall dedicated on the 4th of July, next. The time chosen is a fit day for the ceremony; the name of WASHINGTON is indissolubly connected with the day that gave to the world a great, and a free people.

ODD FELLOWS.—The Order at this place intend celebrating the 44th Anniversary of its introduction into the United States, on the 27th of April next by procession, oration and a grand ball.

OUR LOSSES IN BATTLE.

At Shiloh, our force averaged about 50,000—being 40,000 on the first day, and 67,000 on the second. The approximate number of killed and wounded was 5,000; which makes about nine and a half per cent.

At Antietam, our force was about 100,000.—General McClellan reported the killed and wounded at 2,453 of the former, and 11,222 of the latter; making 13,675; which is about thirteen and a half per cent.

At Fredericksburgh, 80,000 crossed the river, 1,152 were killed, and "between six and seven thousand wounded," making an aggregate we will say, of 8,000, which is ten per cent.

At Murfreesboro we had about 50,000 men engaged, and lost in killed and wounded about five thousand, which is ten per cent.

At Wilson's Creek, under General Lyon, of our 37,000 engaged, we had 923 killed and 721 wounded—an aggregate of 1,644—which is over twenty-five per cent. At Williamsburg, out of about 10,000 engaged, our killed and wounded amounted to 1,886, which is nearly nineteen per cent. At Fair Oaks, out of about 18,000 actually engaged, our losses in killed and wounded were 4,517, which is about twenty-five per cent. At Corinth, out of some 11,000 engaged, our loss in killed and wounded was 2,127, which is nearly twenty per cent.

How with the battles in Mexico. At Buena Vista we lost in killed and wounded 723 out of 4,600, or nearly sixteen per cent. At Molino del Rey, 787 out of 3,447, or nearly twenty-three per cent. At Chetumal, 1,000 out of 7,500, over thirteen per cent. At Chetumal 853 out of 6,800, nearly thirteen per cent.

How with Europe? At Bautzen the loss in killed and wounded on both sides was about seventeen per cent; at Leipzig, at Wagram and at Austerlitz, each about eighteen; at Lutzen, about nineteen; at Friedland and at Marano, each about twenty-one; at Jena, about twenty-six; at Waterloo, about thirty; at Aspern (including Essling), about thirty-five; at Elau and Borodino, each about thirty-six. In the Crimea, owing to the peculiar character of the operations, a mere siege, there was no first colossal battle fought—none in which even forty thousand men, on the part of the Allies were actually engaged. In the brief Italian campaign of Louis Napoleon there were two—Magenta and Solferino; in the former of which, according to the French accounts, the Allies had 55,900 and the Austrians 75,000 engaged; in the latter the Allies had 145,000 and the Austrians 170,000. The loss of the Allies in killed and wounded at Magenta was about ten per cent; and at Solferino, according to the French *Moniteur*, 21,000, which is about fourteen per cent. But the *Moniteur* falsified. It has been shown from hospital figures and other indisputable data—in hospitals of Brescia alone, according to official returns, there were 31,304 wounded, French and Sardinians—that the real loss of the Allies in that memorable day in killed and wounded, was 45,000, which would be a ratio of over thirty per cent.—*New York Times*.

ITEMS OF NEWS.—The Naval Appropriation Bill, now in the House, has for California these items: For the Navy Yard at Mare Island, \$366,363; for the hospital at the same place, \$25,000. The entire appropriation is \$381,363, for the naval service.

Governor Nye of Nevada Territory is stopping at Willard's Hotel, and will remain in Washington for a few weeks, attending to business for his Territory.

John Nugent of California was yesterday admitted to practice in the Supreme Court of the United States, upon motion of Charles O'Connor of New York.

G. Laidstreet, a chaplain in Stuart's rebel cavalry, here on parole, registered his name at the National Hotel yesterday, with the rebel title. The next name below is Major General B. F. Butler, a strange juxtaposition.

A beautiful full length statue of Washington, of life size, has been placed in the rotunda of the Capitol. It was executed by Powers for the State of Louisiana, and was sent here from Baton Rouge by General Butler when that place was captured. It is said to be the best marble likeness of Washington extant, and has been fortunately saved from the destruction which would have overtaken it at the burning of the Louisiana Capitol.

The House Committee of Investigation in the case of J. C. G. Kennedy, Superintendent of the Census, has reported that he has been in correspondence with some of the leading rebels, but they do not offer any evidence to show that the correspondence was treasonable in character. A general clearing out of the Departments is going on, and sixty-two clerks suspected of disloyalty will be discharged from the Interior Department on the first of next month. Other clearances will follow in other Departments.

PUB. DOCS.—We are again the recipients of favors from the Hon. M. S. Latham, Senator from this State, for a complete edition of the Congressional Globe from July 1861, and other valuable State papers. He is the only man that has honestly represented the interests of California in the United States Senate, and we can sincerely say, the only one who has endeavored to keep his constituency informed on the great issues of the day. While he donates thousands of dollars in the shape of public documents bound, the canting Republican hypocrites quietly draw their books and dispose of them to jobbing stations at the East, and as unceremoniously pocket the proceeds. Do you see the difference?

FOREST HILL.—We paid a visit to our old friends at this place on Friday last, and rejoiced to find them in the enjoyment of good health and fine spirits, and all the other comforts. The business prospects of the town are as good as most of the mountain villages, but at present the town is dull. Lynch; P. Lynch, however, is apparently doing a thriving business. Out of debt; plenty of paper, with the patronage of the Republican party, he has a fair prospect of doing well. This town is built in a beautiful location, has one or more brick blocks, and presents to the stranger at first sight a pleasing and imposing appearance, which is increased by a continued stay among the kind and hospitable citizens.

We cannot imagine why some people persist in purchasing cheap slop clothing. They never look decent and at the end of the year have spent twice as much money as the well dressed gentlemen. Houston, Hastings & Co., of Lick House, Montgomery street, corner of Sutter, San Francisco, are just the men to fit you out to your own profit and admiration.

CONCERT.—On Saturday evening our citizens will have an opportunity to attend a Vocal and Instrumental Concert at the Church, given by Mr. and Mrs. Cook. They come well recommended, and we doubt not their efforts will be of the highest order.

SACRAMENTO CITY, Feb. 23rd, 1863.

EDITOR ENQUIRER.—When I last wrote you the assembled wisdom of our State had taken a furlough, with the view, doubtless, of feeling the pulse of that highly esteemed and worthy old citizen, public opinion, and to ascertain, if possible, how many had made themselves marionettes in the eyes of the dear people by the choice of a United States Senator. The adjournment of the legislature; their "spud" to the country, and the swarm of government officials who had infected the city, previous to the termination of the Senatorial contest, having made their exit, leaves this place comparatively dull, especially public places of amusement, and more especially the *Madison*. I incline to the opinion that the good people of our fair State are more faithfully represented in the latter place, than they are in the halls of legislation. The Legislature—both branches—continue to indulge their propensity for special legislation. They are doing a "you tickle me and I'll tickle you" business on a large scale. John Smith, of Sage Brush Flat, says to another member of the Hon. Smith Bro., you assist me in getting a franchise for John Doe (for which I receive — dollars) to construct and keep a toll road on the head waters of the San Joaquin, and I will help you to get a franchise for Richard Roe to keep a toll road on the north fork of the north fork. Of course they do not choose, since the Watrous bribery case, a *wardrobe* as a place of rendezvous when they meet to make these important negotiations, upon the contrary, they retire to some open field, the larger the better, and after carefully surveying the premises, with mouth to ear the business is completed. To such an alarming extent is the special legislation being carried, that I doubt not parties with plenty of the metallic substance to back them, might obtain the privilege of receiving toll on the most public thoroughfare in the State. It is an outrage upon the best interests of the people and State, and one that should be promptly rebuked by every good citizen. The Legislature has been in session now near two months, and to my certain knowledge, have not passed a single act of general good or interest to the State, and when we reflect upon the misfortunes of last winter's flood, in connection with the scarcity of water in mining districts the present winter, it would seem the *Union-Intrenchment* party to terminate the session and consequent expenses at the earliest moment, instead of protracting their labors on special acts, nonsensical resolutions, and Gaspee Bills, to the detriment of every taxpayer in the State. We do not need any more laws, we have more now than is enforced. Blanchard is keeping a sharp look out for the hurdy gurdy bill, he has considerable trouble to get it in proper shape for action. The present bill provides for visiting its penalty upon spectators, the same as those who participate in the merry dance. This bill can never be made "stick" in this shape, it is carrying the joke a little too far. The only way which suggests itself to a reflective mind, to put a stop to these indispensable and popular nuisances and portable dance houses, is to impose a heavy tax or license. This course would at least create a source of revenue for the State, if it did not amount to a prohibition, or eradicate the evil. Senator Harriman's tongue is still paralyzed.—He is to all intents and purposes a *practical* anti-freedom speaker. I rather like him for his party consistency, but this will not satisfy the sovereigns of Placer. I predict he will represent Placer next Fall on the head waters of Salt river, it would be good for his health. The climate in that region is peculiarly adapted to persons afflicted with his malady. The committee appointed to investigate the State Treasurer's "Greenback" speculation, have not yet made their report, and probably will let the whole matter go by default. It seems to be one of the cardinal principles of the *Union-Intrenchment* party to cover up frauds committed by Government officials. They argue that it will "embarrass" the administration to expose the swindles perpetrated by contractors and employees. This is a new kind of embarrassment indeed. Who ever heard of such a thing? I have been laboring under a delusion all my life. I have thought all along that the proper and most efficient means of serving the administration was to be on the alert at all times, ever watchful of the public purse, best interests and welfare of the government.

The weather down here is improving. It reminds one that the "spring time has come gentle Annie."

The mud, to the extreme gratification of "trails" and patent leather Congress tights is slowly drying up.

All quiet on the "Potomac."

SACRAMENTO CITY, March 3d, 1863.

EDITOR ENQUIRER.—"Greenbacks" form a very prominent subject for legislation. A resolution has been introduced in the Senate instructing our representatives at Washington to use their influence with a view of securing the pay for soldiers and employees of the Government, on this coast, in gold and silver, instead of "Greenbacks" or legal tenders. Why this peculiar class of individuals should be thus favored, the resolution does not state. Simultaneous with this action upon the part of the Senate, the Assembly had under consideration a similar resolution, which provides that all of the territory West of the Rocky mountains, should be exempt from the legal tender clause. There was some extraordinary reasoning on this subject, and the whole matter was finally laid on the table, by a vote of 45 to 12—Democrats, without exception, voting for its passage. During the discussion of this measure the "Irrepressibles" argued of course that "greenbacks" were not at all desirable in the East, but simply gold coin commanded a premium. Why endeavor by such flimsy sophistry to smother out and cover up truth? Why not, like honest men, candidly and frankly admit facts as they exist? Every one of ordinary intelligence knows that a "rise in gold" is possible, and that is to the general government a real cause, and that is to the ultimate success of the war. Let the retrenchment party disguise the fact as they may, this is the true state of affairs. The assembly passed a resolution, "some days since," denouncing Senator Latham, and proffering against his appointment as one of the Supreme Judges of this State, and when a telegram was read from Latham stating that he was not an aspirant, nor never dreamt of receiving the appointment, they made themselves, if possible, more ridiculous, by refusing to recede from the position they had taken. Blanchard is still looking after the hurdy gurdy bill.

Harriman's capacity for saying nothing, if anything, is improving. According to that reliable journal, the *Sacramento Union*, the Ram Queen of the West has been captured by a rich Scotch Widow. This, however, needs official confirmation. For further particulars see small bills.

Yours, JUSTICE.

NORTH PACIFIC REVIEW.—The March number of this excellent California Monthly has reached us. Its pages, as usual, are well filled with original matter, in addition to which it contains a lithograph likeness of Mayor Teschemacher, of San Francisco.

THE BEAUTY OF THE BEARD.

[For the Enquirer.]

RESPECTFULLY DEDICATED TO ALL SHAVES—GREAT AND SMALL.

BY VIR.

Of beards I write, and nothing more—The beards our noble fathers wore, Who looked "like men" in days of yore.

But in this shaviness, cutting edge, The barber and the public wage, A war against all manly grace, Drawing the razor o'er the face, To shave men clean, and strip them bare Of nature's ornament—the hair.

That tyrant Custom, when you rise, Requires its morning sacrifice. The brush and lather in request; A cold, keen razor does the rest. Sometimes a pimple in the way; What's to be done 'tis hard to say, A skillful move may save your blood—A rough one draw the purple flood.

Eruptions come within this class, So ere you shave look in the glass.

But why this fuss for soap and water? There's nothing really the matter. Are you quite sure you're doing right In coating o'er your chin with white? The only reason many shave Is simply that they always have.

They must scrape on as others do; If others stop, why they will too. Some shave entirely, and look bald, But this may still be cleanly called; Some leave no vestige but the lip, Giving each end a curly tip; Some superadd a turkey dew—Imperial called by many a fop; Some only let the whiskers grow, And leave them long with nature's dew; Some only dock the forward chin—The flesh just showing where they've been.

But why this shaving—small or much? Is it not better not to touch? The native birthright of a man, Than shave or hack it as you can? Does not each man require his beard? Is not an asthma to be feared? Does not the throat demand a screen Against the frosts and currents keen? Then let the razor be disused; Too long has nature been abused. Let men be men, and take their station, And beard be beard throughout the nation.

But, every beard requires some care, Of nature let it have its share; Truly apply the brush and comb; Keep every straggling hair at home, And trim it to its proper length. To keep its form or gather strength; So what was once despised shall be A mark of manly dignity.

GOV. STANFORD'S PROTEST.—The following protest of the Governor against the raising of troops in California for filling the quota of Massachusetts, clearly indicates a return of sanity. We have, ever since this subject was first mooted, been opposed to it, mainly upon the ground of illegality, but his Excellency remained "mum" upon the subject until becoming convinced through popular feeling and indignation, he degraded to issue his protest to the measure upon legal grounds. He now advocates the "States Rights" doctrine which is in direct conflict with his party dictation. Read the protest!

STATE OF CALIFORNIA. EXECUTIVE DEPARTMENT, Jan. 24, 1863.

GENERAL.—I have the honor to acknowledge the receipt of yours of the 23d instant, inclosing a dispatch from W. Scott Ketchum, Brigadier General, and Assistant Adjutant General, ordering the mustering into the service of the United States of four companies of cavalry, to be raised in this State, for service in the contingent of the State of Massachusetts.

The proceedings under and by force of which these troops are to be raised are clearly irregular, and in violation of the rights of this State. I know of no authority by which the Governor of Massachusetts can raise volunteers in California, either through the orders of the War Department, or the inconsiderate and officious action of citizens of this State.

For reasons that follow, I do not feel bound to interfere in the case alluded to, at this time, if any, to prohibit recruiting for the four companies proposed to be raised; yet I must protest against its being accepted as a precedent to bind the authorities of this State in the future.

While I am more than willing to discharge every obligation that is incumbent upon me, in every respect, in connection with the raising of troops, I am not willing that my silence shall be construed into an obligation not to interfere with the raising of the said four companies for Massachusetts, as I may very likely do, should the necessities of this State, or the action of the authorities of this State, in complying with the calls of the general government, seem to require.

Thus, as a citizen of the United States, with sympathies that embrace every portion of our nationality, and anxious to do all in my power to preserve and strengthen that nationality, I would not deny to the general government one soldier; and would earnestly and cheerfully obey to the last extent her calls for aid. Yet I do not consent to be my duty in any manner to permit the rights of the State to be invaded or disregarded, without taking means, as the occasion may seem to require, to guard those rights in the present and in the future.

I have the honor to be, General, very respectfully, your obedient servant,

LELAND STANFORD, Governor of California.

To Brigadier General George Wright, Commanding Department of Pacific, U. S. A.

THREE NEGROES FOR THREE SHEEP.—The gallant Federal soldiers in the army of the Rappahannock treat Mr. Lincoln's emancipation proclamation with the utmost contempt. The Mountain Democrat says, they are not to be trifled with, nor will they permit the President, by proclamation, to degrade them in the eyes of their countrymen. A number of the Federal soldiers, a few days since, took three contrabands across the Rappahannock into the rebel lines, and traded them off with the rebel soldiers, for three sheep. The arrangements for the trade had been previously made with the rebel pickets. The Federal soldiers told the rebels that they would bring them more negroes at the same rate—a sheep for a negro. The soldiers who did the trading are members of New York and New Jersey Regiments, and openly declared their hostility to the policy of the Abolitionists. Trouble is anticipated on account of their opposition to the President's proclamation.

A GHASTLY RECORD.—The statisticians are figuring up the following losses in the various engagements during the year: Rebel killed, 138,810; wounded, 103,707; Union killed and wounded, 138,810. Total, 236,526.—*Ex.*

We appear to have lost, in killed and wounded, some 29,000 more than the rebels have in killed, wounded and prisoners. This is rather a sickening showing for the many and repeated successes of the Union arms?

The indications are that a bill will be passed by the Legislature providing for the issue of State bonds to the amount of \$500,000, to be expended in the purchase of arms. With

STATE NEWS.

We learn from the California Republican, that in the case of Samuel Carls, indicted for the murder of his uncle S. D. Carls, the jury returned about 10 P. M. Friday night, returned to Court about 10 A. M. Saturday, and being unable to agree were discharged. They stood eight for conviction and four for acquittal. The trial of the case was set for the first Monday in April next, and the prisoner remanded to the custody of the Sheriff.

It seems that all sales for delinquent taxes have been suspended by the offer in several cases to redeem before the six months expire by the tender of legal tender notes. The purchase is made in gold, and the redemption sought to be accomplished with greenbacks. An Act has been introduced into the Assembly "concerning the redemption of real estate in certain cases," which ought to pass immediately and its provisions made to apply throughout the State. Until it is passed no sales for delinquent taxes can be made by the Sheriff and Constables.

The Grass Valley National states that the head of a Chinaman, who had doubtless been murdered and the balance of his body in some mysterious manner disposed of, was found a few days ago, out on Greenhorn. The fact of the head alone being found, and no other portion of the body being discovered, certainly gives the matter an appearance of mystery. A Chinaman, well known among his countrymen at Grass Valley, has been missing for ten days past, and it is thought he is the murdered one whose head was found on Greenhorn.

Gov. Stanford, in laying the corner stone of the Broderick Monument on Monday, said:—"We are met here to-day to do honor to the name and fame of one who was emphatically a man of the people. In all his aspirations, he endeavored to do that which would prove of the greatest advantage to the best interests of his State and the country. It was therefore eminently fit and proper that on this day we should thus do honor to his memory."

The San Francisco Bankers give notice that on and after Monday last all checks drawn upon them for more than twenty dollars, must be stamped with a Federal stamp of the value of two cents, otherwise they will not be paid. Also, that all promissory notes, bills of exchange, and other instruments liable to stamp duty, must bear the proper stamp, in accordance with the Act of Congress, approved July 1, 1862.

On the night of the 11th Feb., the neighborhood of Knight's Ferry, says the Calaveras Chronicle, Stanislaus county, was visited by a very respectably proportioned tornado, which blew down the frame of the San Joaquin Water Company, carrying portions of that structure nearly 200 feet from the ground on which it stood, besides shifting several wooden buildings from their foundations.

At Yreka, on the 24th of February, a cave occurred in the mining claim of Short & Co., in the Western part of the town. Two men, William Bailey and Richard Doe, were covered up. Bailey was taken out dead, and Doe was so badly crushed that he hopes are entertained of his recovery. There were only four men in the drift at the time of the cave.

JOHN Donnellan, of the Bay State Ranch, between Mokelumne Hill and San Andreas, recently discovered copper and silver croppings, which promise to be among the richest yet reported in this vicinity. Quite an excitement was produced in that neighborhood, and claims were immediately staked off for a long distance on the lead.

The Legislature passed a bill limiting the annual expense of Visiting Committees of the State Agricultural Society, to one thousand dollars—and another, requiring County Clerks and Recorders to keep their offices open from 9 A. M. to 5 P. M.

A teamster named John Jean committed suicide, at Downieville, on Thursday last, by shooting himself in the mouth with a pistol. No cause is assigned for the commission of the act except that he was lightly embarrassed pecuniarily.

TREASURER Ashley paid, on Thursday last, to Assistant Treasurer Cheeseman, on account of California's quota to the national tax, \$118,636 in greenbacks, and ten cents in coin, instead of a postage stamp. Of the greenbacks, 123 are \$1000 notes, generally perfectly new.

MICHAEL Cassin, an old and well known citizen of this county (Nevada), was killed in his mining claims near Battleville, on the 23d of Feb. We have no particulars of the accident further than that he was holding the pipe, when the bank caved upon him.

At the unanimous request of the California Congressional Delegation, Hon. Stephen J. Field, now Chief Justice of this State, has been appointed United States Circuit Court Judge, vice McAllister, resigned.

THE amount of funds on hand, belonging to the different funds, in the State Treasury, at the close of business on the 28th of Feb. 1863, was \$465,848 46.

JERRY CONLEY, an old and highly esteemed citizen of Laucha Plains, says the Amador Dispatch, was killed by the caving of a bank of gravel, at that place, on the 9th ult.

E. W. Richardson, late of Grass Valley, confined on a charge of murder, and H. F. Swayze, the murderer of Geo. W. Derriksen, of the Washoe Times, both broke jail at Carson City on the 18th ult. and are now at large.

Swayze, who escaped from jail here, was arrested in Long Valley last Thursday by two men—Houch and Robinson. The prisoner made no resistance, and is now confined in jail heavily ironed.

By the last steamer, \$15,000 was remitted to Dr. Bellows. This will amount, really, to \$22,000 when it gets to New York.

MORE rich copper discoveries have recently been made in Calaveras county between Mokelumne Hill and San Andreas.

On the first of January the new homestead law took effect. For fifteen dollars a man can secure 100 acres of government land by this Act.

JOHN Wilson has leased lot opposite Occidental, and adjoining Calvary Church, San Francisco, and will put up a first class theater.

J. B. McQuillan, late of the Santa Cruz Sentinel, has got a commission and gone into service.

MARCH 17th, late Public Administrator, arrested on a charge of grand larceny, has been admitted to bail in the sum of \$5,000.

Mr. John Doyle an old printer and conductor of the Shipping Gazette, died recently in San Francisco, at the age of 73 years.

THANKS to J. W. Sullivan, news dealer of San Francisco, for files of Eastern papers, etc.; also for copies of the London Index.

ASSEMBLYMAN YULE has our thanks for the Annual Report of the State Geologist, for the year 1862.

A WORD TO THE AGED.—In the decline of
life the loss of vital force consequent upon physical
decay can only be safely supplied by some vivifying
preparation which recruits the strength and
spirits, without entailing the exhaustion which is
always the final effect of ordinary stimulants. It
is the aged Dr. HOSTETTER'S STOMACH
BITTERS as an invigorant and restorative, im-
mediate in its beneficial action and permanent in
its effect. It tones the stomach, improves the appetite,
acts like a charm upon the spirits. For dyspepsia,
oppression after eating, biliousness, wind, cholera,
spasms of the stomach, sick or nervous headache,
chills and fever, tremors, prostration, and all the
complaints special to the feeble sex, the Bitters are
earnestly recommended by thousands who have wit-
nessed their superior efficacy in such cases. Sold
by all druggists and dealers everywhere. m13-1m

Every housekeeper experiences how difficult it
is in making good bread and we therefore take
pleasure in calling attention to the fact that to in-
sure uniformly light, sweet and nutritious
bread, it is only necessary to use REDINGTON'S &
Co.'s YEAST POWDERS, which in every respect ex-
cel all similar preparations ever offered to the pub-
lic. See advertisement in another column.

In calling the attention of the reader to the ad-
vertisement of Dr. J. C. Young, to be found in an
other part of this paper, we feel we are answering
the dictates of honest conviction in pointing out to
suffering humanity the honest and skillful medical
practitioner. It is the duty of every man, whose
knowledge places it in his power, to act as a guide
to those who otherwise would unwittingly take a
wrong path. Throughout the length and breadth
of our fair State is spread the insidious seeds of
a terrible disease. No need to be thus. No need
to wear out a life of pain and anguish and in the
end to fill a dishonored grave. Hesitate no longer
unfortunate ones, but turn to the Doctor who alone
can restore you, giving you in place of wasted en-
ergies and an impaired constitution, full health
vigor and power.

Actuated by the wish to exert his powers to cure,
he proves his honesty by the motto on his display-
ing his conviction of his capability, and showing his
confidence in mankind, "No Cure No Pay." The
Doctor's office is No. 15 Commercial St., op-
posite the U. S. Branch Mint, San Francisco, 45

Proof and Burglar Safes. This
Safe is well known in the market
for its unsurpassed fire proof
quality, having withstood in Cal-
ifornia, as well as in the East, the
hottest fires known. We can refer to endless cer-
tificates from parties in our mining towns, where
these Safes have been subject to the most severe
tests of fire proof qualities. The Safes are se-
cured by our Combination Lock. This Lock is in
every respect the most secure one in use; it requires
the key and combination to open the Safe. If the
key should be abstracted from the owner, it would
be perfectly useless to the possessor without his
knowing the combination, or mental key, which the
owner carries in his head. To those in want of a
reliable Safe we offer the above cheaper than any
other in the market.

HALL'S SARSAPARILLA,

Yellow Dock and Iodide of Potass.

This celebrated preparation has stood the test of
six years with the California public—who are just-
ly considered as a community the most intelligent
in the world—during which period it has proved to
be a household remedy for Californians
particularly, who, from much exposure, bad food,
imperfect shelter and irregular habits, suffer more
from
RHEUMATISM
Than any community in the world; and we are safe
in saying that as a rule California Rheumatism
cannot be cured without the use of
HALL'S SARSAPARILLA.
It is the only preparation that will cure Rheumat-
ism, as thousands can testify who have tried the
medicines of the best Doctors in the country, with-
out receiving any benefit therefrom. It all cases
it gives immediate relief when taken as per direc-
tions on the bottle.

FEMALES
In delicate health would do well to try the virtues
of this remedy, as it insures a beneficial influ-
ence upon the vascular system not obtained by
any other remedy. It quickly removes from the
blood and other fluids the impurities of unhealthy
secretions, which engenders a long train of diseases,
such as Scrofula, Ulcers, Boils, Blisters and Pim-
ples on the face and body, Humors, Pastules, Sore
Throat, Rose or Erysipelas, Tetter, Scald Head,
Swelled Neck, Liver Complaint, Lumbago, Chronic
Sore Eyes, Gout, Capex, Enlargement of the Or-
daries, and diseases of the Heart, are cured by the
renovating action of this truly valuable medicine.
It acts like a charm, purifying the blood of all
morbid and corrupt matter, and at the same time
strengthens and invigorates the whole system. It
Sarsaparilla will positively yield to the medical
powers of this remedy, in conjunction with Sarsa-
parilla, which has cured cases of over twenty
years standing, the disease covering nearly the
whole surface of the body.

MERCURIAL DISEASES
and all diseases arising from lead, mercury, and
arsenic, such as aching pains in the bones, dimness
of sight, low fevers, and worst of all, mercurial
Rheumatism, are relieved by one bottle of this
remedy. Night sweats, wasting of flesh, spitting
of blood, habitual constipation and piles—thousands
can testify to the efficacy of Hall's Sarsaparilla;
Yellow Dock and Iodide of Potass in the above
named diseases. It increases the appetite and the
flesh, gives a healthy tone and vigor to the whole
system, building up a new constitution. As the
constitution is the blood and this remedy thoroughly
purifies, cleanses, and purges it of impure matters
